Official Reporter, U.S. District Court

(Appearances continued, next page)

1       **THE COURT:** Of use? So, are you going to be able to show  
2       that there was some point in time where that exact set of LiDAR  
3       signals was used to sort of jump-start their program? Even if  
4       they're not using it now, they used it at one point in their  
5       development?

6       **MS. BAILY:** Well, I would say, Your Honor, having that  
7       information that resulted from seven years of iterations and  
8       driving miles, it's in some ways the crown jewels of the kind of  
9       technology that we are talking about.

10       So I would say that having access to that and having -- and  
11       evidence of use with respect to that, that's a big damages  
12       number.

13       **THE COURT:** All right. So, but I -- maybe we'll hear more  
14       about this, in this closed session. But I think I know the  
15       trade secret you are talking about.

16       And are you going to be able to show that that document is  
17       in the files of Uber? I don't think so.

18       **MS. BAILY:** We have evidence of the use of the information.

19       **THE COURT:** I'm going to just leave it there.

20       Do you know which one she's talking about?

21       **MS. DUNN:** I do know. I --

22       **THE COURT:** Well, all right. Well, that one, if it was in  
23       fact used and consulted, that would be some valuable  
24       information. I think that's correct. I don't know what the  
25       dollar amounts would come to.
